Renewal & Policy Servicing Process

1. Overview

This document defines the renewal and policy servicing processes, covering post-issuance policy lifecycle management. It is intended for developers and testers of the renewal center, servicing center, payment center, and notification center.

2. Renewal Process

2.1 Premium Collection Flow

Receivable Generation → Reminder → Payment Processing → Confirmation → Completion
 ↓
 Grace Period → Lapse

2.2 Renewal Timeline

Time	Action	Notes
Policy Effective	First premium paid	-
D-30	Send payment reminder	SMS/App Push/Email
Due Date	Auto-debit attempt	If auto-pay enrolled
D+1 to D+60	Grace period	Coverage continues
D+61	Policy lapses	Coverage suspended
Within 2 years	Reinstatement	Requires re-UW
After 2 years	Not reinstatable	Cash value refund

2.3 Reminder Strategy

Phase	Channel	Frequency	Content
D-30	SMS	Weekly	Amount, due date
D-7	SMS+Push	Every 3 days	Payment instructions
Due date	SMS+Phone	Once	Payment reminder
Grace D+30	SMS	Once	Impending lapse warning
Grace D+55	SMS+Phone	Final	Last reminder
After lapse	SMS	Once	Lapse notice, reinstatement info

2.4 System Interactions - Renewal

Interface	Caller	Responder	Description
Generate Receivable	Renewal	Policy	Create payment records
Auto-debit Request	Renewal	Payment	Scheduled deduction
Payment Result	Payment	Renewal	Success/failure

Interface	Caller	Responder	Description
Lapse Processing	Renewal	Policy	Update policy status
Reinstatement Request	Channel/Servicing	Renewal	Initiate reinstatement

3. Policy Servicing Process

3.1 Servicing Types

Type	Description	SLA	Financial Impact
Coverage Change	Increase/decrease sum insured	T+0	Premium adjustment
Payment Mode	Monthly/quarterly/annual switch	T+0	Premium adjustment
Beneficiary Change	Add/change/remove	T+0	None
Policyholder Change	Transfer ownership	T+1	None
Policy Loan	Borrow against cash value	T+0	Loan record
Reduced Paid-up	Use cash value as single premium	T+0	Reduced coverage
Free-look Cancellation	Cancel within free-look period	T+0	Full refund
Surrender	Terminate policy	T+1	Cash value refund

3.2 Servicing Process

Application → Document Review → Calculation → UW (if needed) → Payment → Confirmation

3.3 System Interactions - Servicing

Interface	Caller	Responder	Description
Service Application	Channel/App	Servicing	Create service request
Service Quote	Channel	Servicing	Calculate financial impact
Payment Processing	Servicing	Payment	Refund/collect
Policy Update	Servicing	Policy	Update policy data

Interface	Caller	Responder	Description
UW Request	Servicing	Risk Engine	Reinstatement/coverage increase UW
